Subscription Notice for Draft Agenda Items

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003, 505 Van Ness Avenue, San Francisco, CA 94102, or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and Sacramento field offices. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. These locations will not receive agenda items that are not ready on the distribution date.

If an agenda item is held over to a subsequent Commission meeting, that agenda item and any revisions to that agenda item that were available on the morning of the initial Commission meeting (as well as any further available revisions) will be mailed in the Escutia package for the subsequent Commission meeting; the item and its revisions will also be available for viewing and photocopying in the Commission's Central Files Office and field offices as set forth above.

	I01-09-002	Order instituting investigation on the Commission's own motion to assess and revise the New Regulatory Framework for Pacific Bell and Verizon California Incorporated.

Summary: LATE FILED. On July 11, 2003, Robert Finkelstein, attorney for The Utility Reform Network (TURN), met with Robert Wullenjohn, advisor to Cmmr. Brown, in San Francisco. Also present was William Nusbaum, attorney for TURN. Copies of TURN's comments on the proposed decision (PD) of ALJ Thomas and the alternate of Cmmrs. Kennedy and Peevey were used. TURN's representatives addressed its concerns with the alternate. TURN's representatives stated that the statistical analysis featured prominently in the alternate inappropriately shifted focus away from the fact that at various times during the period reviewed in Phase 2B, Pacific and Verizon customers saw a decline in service quality. TURN's representatives concluded by acknowledging that the alternate addresses a broader array of measures than does the PD, largely because the PD focused on the areas that need improvement in the future. TURN suggested that if this is a concern, the appropriate remedy would be to revise the PD to include a lengthier discussion of the utilities' performance on all measures.

Pak, Director of Regulatory Policy & Analysis, Sempra Energy Global Enterprises, for Sempra Energy Resources (SER), met with Julie Fitch, advisor to Pres. Peevey, in San Francisco. Pak indicated that SER expected all bids to be evaluated under the criteria set forth both in the RFP specifications and in the Ruling.

Summary: AUGMENTATION REQUIRED. On July 22, 2003, Don Schultz, witness for the Office of Ratepayer Advocates (ORA), met with ALJ Gottstein. Also present was Paul Angelopulo, attorney for ORA. Written materials (attached to the

notice) were used. ORA representatives stated that with regard to the results of various verification activities undertaken by ORA over the years, some of those results have been included in prior submittals in previous years. Schultz stated that ORA will submit a report on its verification of the reported costs and benefits of all four utilities in Program Year 1998-2002. Schultz explained his understanding of the policy rules relating to cost-effectiveness, market share and customer affidavits. Schultz expressed his view that with regard to earnings claims by the utilities, there has been no clear guidance from the Commission as to the precise nature, scope or requirements of a 'true-up' for commitments by program administrators. Schultz explained his understanding of the meaning of 'commitments', i.e. agreements by these program administrators during the course of a given calendar year to provide financial assistance for specific energy efficiency projects. Mr. Schultz stated that one of his concerns is that not all of the projects have been successfully completed and therefore recovery of earnings claims should not be automatic.
